Experience

Concentrix Daksh **Full-time — Onsite**
Advisor *April 2024 – September 2024*

- Resolved 50+ daily customer inquiries in real time while maintaining high service quality and customer satisfaction.
- Collaborated with cross-functional teams to streamline workflows and improve service delivery.
- Maintained strong product knowledge to provide accurate and timely support.

Projects

ATOM – Mental Health Platform | *React, Tailwind CSS, Supabase*

Live Project Link

- Engineered a full-stack mental health platform using React and Supabase, delivering self-assessment tools, therapist discovery, and secure user authentication for users.
- Increased user engagement by integrating AI-powered chat, location-based social matching, and guided wellness features including breathing exercises and mood tracking.

Anchor | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS*

Live Project Link

- Built a full-stack MERN networking platform with JWT authentication, RESTful APIs, and dynamic user profiles supporting real-time content management.
- Enabled live communication and discovery by implementing Socket.io messaging and MapLibre geolocation search, alongside bookmarks, comments, and responsive dark/light themes.

Wallet – Digital ID Manager | *React, Redux Toolkit, Supabase*

Live Project Link

- Developed a secure document management system enabling users to store, organize, and retrieve digital IDs via Supabase authentication and encrypted storage.
- Improved app scalability and performance by architecting state management with Redux Toolkit and building a responsive, accessible React UI.
